8 As for the frontier roads we the Committee recommend their retention on the Bombay frontier & the D.C wants them also on the South Canara frontier. As regards the other roads if the road traffic in such directions can be neglected the roads may be removed; otherwise they should be retained so long as the restrictions are kept up..

9 In regard to the depots, I do not think there is anything to recommend the proposal of the Committee to form municipal depots but with liability on first to bear the loss. If there are such localities it is best to keep on the first depots three or four months or two more. Another plan would be to keep the Central Depot in Bangalore with a small reserve stock from which supplies could be made to any place where there is any acute difficulty.

10 A certain amount of shark practice on the part of merchants may have to be provided for & there will be some fluttering before things settle down

11 I agree with the proposals of the Committee. We have already commenced opening depots in the Bombay frontier & we propose to open depots in the Canara frontier also as early as possible. 20-12-19

16 I had a long talk with
the Chairman yesterday. The food situation
in regard to rice is still not clear & there
seems the reason to think that prices will not
go down for yet awhile. He informed me
that a group of merchants in Bangalore
had offered to take over all the sapling rice stock
in the food depots at cost price, Govt having
the option to reserve whatever quantities
he thought fit. The Chairman thought
it would be well if stocks of 1000 bags
in each of Bgre & 6 or 7000 bags in Bangalore
were kept to meet any new situation.

17 He also spoke to me about the
need for keeping up the Fodder
arrangements on the Kolar side

The Private Secretary,

To the Dewan of Mysore,

Bangalore.

Sir,

As it is believed that Government intends doing away with the Food Control and removing all restrictions as to export of all food grains &C., this Association respectfully begs to protest against this action, as the unusually heavy rains in the early part of November has caused very considerable damage to the crops which were then almost ready for harvesting, and in view of this the present very high prices are likely to continue, and the poorer classes will suffer the utmost distress. It is therefore hoped that the Dewan will be able to see his way to allow all restrictions to remain in force until such times as, at least, prices become normal again.

I have the honour to be

Sir,

Your obedient servant

OFFICE OF THE FOOD CONTROLLER AND DIRECTOR OF CIVIL SUPPLIES IN MYSORE.

Bangalore, 12th December 19 42

Tele-Address. "CIVISUP"

From

K. MATTHAN, Esq., B. A.
Food Controller & Director of Civil Supplies in Mysore.

15711

To

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of Mysore

Sir,

With reference to your letter No.G.12589 of the 1st instant calling for the opinion of the Central Food Supplies Committee on a letter from the Honorary Secretary of the Bababudin Planters' Association, pressing for the continuance of the restrictions on the export of food grains outside the State, I have the honour to state that the letter under advertence together with the opinions of all the Deputy Commissioners, whom I had previously consulted on the subject, was placed before the Central Food Supplies Committee at its meeting held to-day. The opinions of the Deputy Commissioners are briefly as follows:-

Bangalore. "In matters like this mere local conditions ought not to be allowed to weigh in the decision. The restriction on trade now exercised is exceptional and should cease as soon as possible even at the risk of causing some inconvenience to certain sections of people

Kolar. "The Deputy Commissioner thinks that the removal of restrictions is extremely undesirable just at this moment. The removal of the embargo on the export of horsegram has already raised the prices from about 9 to 7 seers a rupee. Foreign merchants are

are reported to be very busy canvassing and advancing money to the ryots on the standing crops. The Deputy Commissioner fears that the major portion of the produce will thus get exported and the country will again be left to face a situation similar to what it had to do during the months of August to October".

Tumkur. "I am in favour of removing all restrictions even with regard to paddy, rice and ragi as I do not apprehend any great difficulty in view of the reported good harvest of food crops both within and outside the State. Sale of food grains by Government agency cannot be continued indefinitely. Sooner or later restrictions must be removed and no better time than the present good harvest can be found for its abolition" The Deputy Commissioner further considers that there is likelihood of an attempt being made to keep back grain from markets for some time. With a view to checking the profiteering tendency of merchants, the Deputy Commissioner considers that it is desirable to keep a stock of about 500 bags of rice and an equal quantity of ragi in all district headquarters and half the quantity in some taluk headquarters "so as to be ready to meet any contingency that may arise in case any organised attempt is made to corner food grains". He thinks the depots may be finally abolished by the end of March or April.

Mysore. "I am not in favour of continuing the restrictions"

Hassan. "If the harvested crops are allowed to go outside, there is not the least doubt that high prices will continue causing great hardship and misery to the people. I am of opinion that the restrictions may be continued for some time longer at least till the end of March 1920".

Kadur. The Deputy Commissioner is not in favour of continuing the restrictions as they hamper trade. He sayd the paddy crop everywhere is very good. Even during the last year when the crops were bad "the demand for the Burma rice in the Malnad taluks of Mudgere and Koppa was very little". He has therefore no apprehension of a shortage of food supplies in the district. As regards the complaint of the Bababudin Planters' Association, he thinks that it is a matter of giving higher wages to the coolies.

Shimoga. "There are indications that the merchants are thinking of holding up stocks. The situation is not quite clear and it may be that our fears will turn out to be unfounded. But as we should be prepared for the worst in a serious matter like this, I would suggest for the consideration of Government that the few remaining restrictions on export may be continued till at least the end of February 1920".

Chitaldrug. "An abrupt relaxation of the restrictions before normal prices set in may spell disaster. Besides, the heavy rains in November last caused considerable damage to the crops and reduced the outturn which would have been otherwise plentiful. This year's yield may not admit of export of foodgrains outside the State without prejudicing the interests of the people within the State particularly the non-agricultural classes. . . . . I am of opinion that it may not be advisable to remove the restrictions until the prices become normal and if possible until we may be sure that such removal would not again affect the prices and disturb the equilibrium of the market"

A copy of the committee's resolution is enclosed. It will be seen that the committee is of opinion that the embargo on the export of rice, ragi and jola may continue so long as the embargo on the export of rice from the adjoining British provinces continues.

2. In the same resolution the committee has dealt with (i) the question of continuance of depots, (ii) frontier preventive establishments and (iii) the general question of profiteering which has been referred to in the several communications received from the Deputy Commissioners. As regards the depots, the opinion of the committee is that there are sufficient supplies available in the rural parts. No arrangements by Government are necessary in regard to such areas. In cities and towns there is no doubt a small section of the people consisting chiefly of the lower middle classes that would suffer by the removal of the existing facilities for obtaining cheap supplies of grain. The committee considers that the time has come when the several municipalities should deal with the question in their respective jurisdictions. The stocks on hand in the several depots may be handed over to the municipalities at cost price. Losses may, subject to such rules as the Government may lay down, be borne by Government and where any municipality does not require such stocks to be kept, the stocks on hand may be disposed of as soon as possible.

3. The committee proposes that all road ookads and frontier police establishments may be abolished with effect from the 1st January except at the Harihar frontier. To this I would add that as it is reported that there is still considerable shortage of rice on

on the west coast, the ookad establishments on the main roads to the South Canara district in the Hassan and Kadur districts may be continued as long as the embargo on the export of rice is continued.

4. The committee has further recommended that the Government might appoint a committee for considering the measures that are necessary for preventing profiteering in foodgrains.

5 very early orders of Government are requested on the proposals of the committee especially in regard to the maintenance of depots by municipalities and in the alternative of disposal of the stocks.

I have the honour to be,

Sir,

Your most obedient servant,

Food Controller & Director
of Civil Supplies in Mysore.

KM/MPH.

Resolution No.3 from the proceedings of the Central Food Supplies Committee at its meeting held on the 12th December 1919.

3. The following papers about continuing the existing restrictions until the prices of food grains become normal:-

(1) Extract from the issue of Sampadabhyudaya dated 24th November 1919.

(2) Letter No.G.12589 dated 1st December 1919 from the Chief Secretary to Government forwarding copy of a letter from the Honorary Secretary, Bababudin Planters' Association.

(3) Opinions of all Deputy Commissioners.

Resolution. The embargo on rice, ragi, and jola may continue so long as the embargo on rice continues in the adjacent British Provinces.

The municipalities may take over the stock of grains whereever they require it, all losses by sale being borne by Government; where municipalities do not require the stock it may be sold as soon as possible.

Road ookads and the frontier police may be abolished except on the Harihar frontier as from 1st January.

This committee considers it desirable that Government should appoint a committee for considering the measures that are necessary for preventing profiteering in food grains.
